THE ENVIRONMENTAL ASSESSMENT ACT, 1975

O. Reg. 675/80.

Exemption—Regional Municipality of
Hamilton-Wentworth—RMHW-1.

Made—July 9th, 1980.

Filed—August 15th, 1980.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT, 1975

Exemption—Regional Municipality of
Hamilton-Wentworth—RMHW-1

Having received a request from The Regional Municipality of Hamilton-Wentworth that an undertaking namely:

The activity of acquiring land, in the circumstances outlined in the conditions below, for purposes of the Redhill Creek Expressway,

be exempted from the application of the Act pursuant to section 30; and

Having received a request from The Regional Municipality of Hamilton-Wentworth that an undertaking to the application of the Act, the following damage or interference with the persons and property indicated will occur:

A. The public will be interfered with and damaged by not being able to readily sell property on which the proposed Redhill Creek Expressway may be located because the proposal may discourage prospective purchasers.

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The acquisition of land prior to approval of the Redhill Creek Expressway under the Act will only be permitted in hardship acquisitions;
- B. The hardship acquisitions are unlikely to have any significant adverse effects on the environment, and therefore, the interference with the public that would be caused by the application of the Act would be undue;
- C. The ownership of land by the proponent will not be a factor in deciding on approval of the undertaking.

This exemption is subject to the following terms and conditions:

1. This exemption applies only to hardship acquisitions.
2. Prior to the acquisition of a parcel of property under this order the Region shall file a report with the Environmental Approvals Branch of the Ministry of the Environment demonstrating that the purchase satisfies the definition of hardship acquisition.
3. The ownership by the Region of any property purchased pursuant to this order shall *not* influence or determine the acceptance and approval of the Redhill Creek and Expressway.

In this Order:

- (a) "Hardship acquisition" means an acquisition of land by the Region from a vendor other than the Crown, a public body, or a municipality, who is unable to get a building permit or other form of approval for development in respect of the land or is unable to sell the land at fair market value because of its potential use as part of the Redhill Creek Expressway that has been requested by the vendor;
- (b) "Redhill Creek Expressway" means a proposed regional roadway to run easterly from that part of the King's Highway known as the No. 403 where it intersects with a roadway known as Mohawk Road in the Town of Ancaster in the Region through an area known as the Redhill Creek Valley to that part of King's Highway known as the Queen Elizabeth Way near the boundary of the City of Hamilton and the Town of Stoney Creek to serve the transportation needs of the area, and any alternatives thereto which have been made an undertaking to which the Act applies;

- (c) "Region" means The Regional Municipality of Hamilton-Wentworth. O. Reg. 675/80.

Treasurers' Sales of Lands for Taxes

Each year, municipal and county treasurers compile a list of properties against which taxes are outstanding for at least two successive years, which is a period sufficient to permit sale of the owner's assets to reimburse the municipality. These lists are submitted by the municipal representative to the Ministry of Government Services for publication in THE ONTARIO GAZETTE.

The Gazette is published every Saturday. Tax sale lands are included only in the issue of the first Saturday of each month. Each property is described so that it may be properly identified. Also shown are the amount of tax arrears and costs, and the date, time and place where the sale will be held, which is usually in a public building in the locality. Sales are held three months or later following the date of publication in the Gazette and are subject to a reserve bid equal to the amount of tax arrears and costs.

The previous owner may by law redeem the property any time within one year and one day after the date of tax sale by paying to the municipality all arrears plus costs levied. Where redemption occurs, the municipality reimburses the purchaser of tax sale lands for the amount paid at the sale plus an additional amount to be determined in each case.

If the land is not redeemed in the manner described above, the purchaser at sale, receives from the municipality a tax deed or certificate which should be registered in the appropriate Land Titles or Registry Office. A purchaser should ascertain from either of these offices, information relating to any of the charges or liens against the land and consider the advisability of employing the services of a solicitor to determine the extent, if any, of his liability.

The foregoing applies to tax sale lands which were privately owned. In the event the land is the property of the Crown as represented by the Province of Ontario, only the improvements on the property, such as buildings, may be sold. In this case, an intending purchaser should for his own protection ascertain from the local office of the Ministry of Natural Resources whether or not the land or any part can be purchased or leased from the Ministry. If it cannot, then the purchaser of the improvements would be required to remove them from the land.

In some cases, land advertised for sale in the Gazette may be bought by the municipality, or the owner, prior to sale, may pay the tax arrears and costs. Where this occurs, the land is removed from the tax sale lists.

The Environmental Assessment Act, 1975

NOTICE OF APPROVAL TO PROCEED WITH THE UNDERTAKING

RE: An Environmental Assessment for the Proposed New Four-Lane Divided Arterial Highway (The Sudbury Northwest By-pass, New Highway 144) at Sudbury between New Highway 17 in the Town of Walden and Highway 144 in the Town of Rayside-Balfour

Proponent: The Minister of Transportation and Communications

EA File No. 1-79-0015-000

TAKE NOTICE that the period for requiring a hearing, provided for in the *Notice of Acceptance of the Environmental Assessment* for the undertaking, expired on June 25, 1980. I have received no notices requiring a hearing by the Environmental Assessment Board with respect to approval to proceed with the undertaking.

I have considered the purpose of *The Environmental Assessment Act, 1975*, and the environmental assessment of the undertaking as accepted by me. No further submissions have been received with respect to the environmental assessment.

Accordingly, I hereby give approval to proceed with the undertaking subject to the conditions given on the attached schedule.

Reasons:

The reasons for giving approval are:

- (1) I received one submission and no notices requiring a hearing by the Environmental Assessment Board after giving the *Notice of Completion of Environmental Assessment Review* dated April 1, 1980 and no submissions or notices requiring a hearing by the Environmental Assessment Board after giving the *Notice of Acceptance of the Environmental Assessment*, dated June 3, 1980. I am not aware of any outstanding issues with respect to this undertaking which suggest that a hearing should be called. The submission received was from the Minister of Transportation and Communications requesting a change to one of the conditions of approval recommended in the review (condition 2). I consider the change to be reasonable and the amended condition is included on the attached schedule.
- (2) The environmental assessment together with the Government review and the attached conditions sufficiently fulfills the purpose of *The Environmental Assessment Act*, which is the betterment of the people of the whole or any part of Ontario by providing for the protection, conservation and wise management in Ontario of the environment.

HARRY PARROTT, D.D.S.
Minister of the Environment,
135 St. Clair Avenue West,
14th Floor,
Toronto, Ontario M4V 1P5.

Approved by
O.C. No. 2046/80

Dated at Toronto the 25th of August, 1980.

CONDITIONS OF APPROVAL

These conditions would apply to the undertaking as described in item 2 of the Resume of the environmental assessment (Form 1)*. As described under the "Type I—Environmental Assessment Report" in Appendix A of the review, the approval will allow property associated with the undertaking to be purchased and the facility to be designed.

In the following conditions, the term "subsequent reports" refers to the "Type II" or, possibly, "Type III" Environmental Assessment Reports for portions of the highway, which are also described in Appendix A.

Often conditions of approval have to be met before an undertaking proceeds. In this case approval would amount to an approval in principle for the location of the highway and does not lead immediately to physical construction: consequently the conditions will apply to the design and planning process that occurs between this approval and final approval under subsequent EAs.

* Form 1 is required by the Act's Regulations and provides a summary of the main topics that must be discussed in an EA to meet the provisions of S. 5 (3) of the Act.

- (1) MTC shall conduct a water quality analysis and an evaluation of the potential effects of the selected route on the water bodies affected by the route and shall include in any subsequent reports the results of the analysis and evaluation and the details of the proposed mitigation methods for the impacts identified by the evaluation.

(2) MTC shall: consult with the Historical Planning and Research Branch of MCR concerning the scheduling of a survey of heritage resources associated with the undertaking and methods of mitigating any impacts on such resources; conduct a survey for archaeological, historical and architectural purposes of all sections of the selected route; for those aggregate sources to be exploited in constructing the project provide the Historical Planning and Research Branch of MCR with as much advance notice as possible as to the aggregate source which will be used, to enable MCR staff to review the site for potential impacts; identify, record and assess the potential impact of the undertaking on sites of archaeological, historical and architectural interest; include the mitigation or avoidance of adverse impacts and the enhancement of beneficial impacts on these sites in determining alignment adjustments, landscape design and route markers and signs; propose a schedule for detailed heritage survey and salvage procedures; and describe the results of the survey, the schedule and the consultations in any subsequent reports.

(3) MTC shall consult with the Sudbury and District Health Unit during the design stage of the proposed facility to ascertain whether any sewage systems may be affected by the construction of the undertaking and shall describe in any subsequent reports this consultation and the remedial measures that will be carried out.

(4) MTC shall: survey the selected route for any wells that may be affected by the construction of the undertaking; conduct water quantity and quality tests, including, where appropriate, pump tests on the wells; consult with the Sudbury District Office of MOE regarding such tests, appropriate mitigating actions and monitoring arrangements; and describe in any subsequent reports the results of the survey and of the tests, the consultation and any mitigating measures and monitoring arrangements.

(5) In designing the undertaking, MTC shall consult with the Regional Municipality of Sudbury, the City of Sudbury, and the Towns of Walden and Rayside-Balfour throughout the design of the undertaking; conform with the local planning documents in the design of the highway; and present the results of this consultation in any subsequent documentation.

The Ontario Highway Transport Board Act

POLICY STATEMENT

ITEM:

Complementary authorities.

OBJECTIVE:

To streamline existing procedures.

BACKGROUND:

The standard policy in Canadian jurisdictions is that a carrier wishing to provide an extra-provincial service is expected first to obtain authority from its home jurisdiction.

Certificates of public necessity and convenience for extra-provincial authority issued by Ontario have in the past contained a provision similar to the following:

"PROVIDED that this authority expires on the _____ day of _____, 19____, unless prior to that date complementary authority as issued by the Manitoba Highway Transport Board is filed with the Ontario Highway Transport Board".

More recently such certificates have contained a provision similar to the following:

"PROVIDED that any extra-provincial operating licence issued pursuant to this certificate shall expire on the _____ day of _____, 19____, unless prior to that date complementary authorities as issued by the Boards and/or Commissions of the Provinces of Manitoba and Saskatchewan are filed with the Ontario Highway Transport Board".

In both cases it is incumbent upon the licensee to obtain and file with the Board the requisite complementary authorities within the designated time period which is normally two years.

If the necessary authorities are filed, the Board will amend its certificate by substituting a provision similar to the following:

"PROVIDED this authority be operated in conjunction with complementary authorities No. _____ as issued by the Manitoba Highway Transport Board and No. _____ issued by the Saskatchewan Highway Traffic Board".

Present practice is that the Board reviews the file three months prior to the expiration of the time allotted and if one or more authorities are not filed the licensee will be advised that unless it files them immediately or submits an application to extend the time for filing them, the Board will revoke its certificate or the portion of the certificate that relates to the missing complementary authority.

If an extension of time application is submitted it is advertised in the usual manner. Applicants are asked to explain why the complementary authority was not obtained. Unless the carrier indicates that every reasonable effort has been made to obtain the necessary authorities, the Board will direct that the matter be set down for a public hearing.

POLICY:

- (i) In all certificates issued after October 31, 1980 the required time period for the filing of complementary authority will be three years.
- (ii) Applicants for extension of time or reinstatement will be accepted by the Board only with respect to certificates issued prior to October 31, 1980 and shall be eligible, subject to satisfying the Board under its policy regarding justification for extensions, for a further extension of one year only.
- (iii) After December 31, 1980 the Board will discontinue the practice of reminding licensees of the final dates for filing complementary authorities. Licences will automatically expire if complementary authorities are not filed in time.

B. B. ALEXANDER,
Chairman.

Comments in respect of this new policy will be heard at the Board's Offices at 4.00 p.m. on Thursday, October 9, 1980 in conjunction with the Chairman's scheduling meeting.

PUBLIC NOTICE

Special Meeting to Develop Procedure for the Hearing of Probationary Applications

BACKGROUND:

The Select Committee of the Legislature on the Highway Transportation of Goods addressed the question of unlicensed trucking in its final report of April 24, 1977. In the report the Committee recommended that legislation be enacted that would, subject to certain conditions, permit the licensing on a probationary basis of certain truckers who were then unlicensed.

A procedure to accomplish this is now contained in Subsections (11), (12), (13), (14), (15), (16), (17), (18) and (19) of Section 6 of *The Public Commercial Vehicles Act*, R.S.O. 1970, Chapter 375 as enacted by *The Public Commercial Vehicles Amendment Act*, 1979, S.O. 1979 (3rd Session), Chapter 56, Section 6 (4). These subsections were proclaimed in force on August 31, 1979.

Shortly after the date of proclamation, a memorandum was issued by the Board to assist those contemplating an application in accordance with these provisions. The memorandum stated that in all cases, the application must contain the names of specific consignors, the goods to be carried and the points of origin and destination.

To date, eighty-four (84) of the one hundred and three (103) probationary applications received have been published in THE ONTARIO GAZETTE. The balance have been found deficient in the following ways:

- (a) Lack of an essential filing requirement such as a tariff of tolls; or
- (b) Lack of sufficient particularity in the description of the consignors, the goods to be carried and the points of origin and destination.

PROPOSAL:

The Board proposes to commence the hearing of the probationary applications in November, 1980. Applications published on or before September 30, 1980, will be heard at that time. A proposed schedule for the hearing of applications currently published will be forwarded to all parties and their counsel prior to the meeting described below.

Those applications still unable to be published by reason of insufficient particulars will not receive a further request for compliance with filing requirements. They will be published only upon compliance and heard at a future date.

Along with some probationary applications, the Board has received applications for operating licences under *The Public Commercial Vehicles Act* and the *Motor Vehicle Transport Act* in similar but usually broader terms. Where such applications have been submitted together, they will be heard on the same date.

In a hearing of a probationary application, the support of the consignors under Section 6 (12) (e) of *The Public Commercial Vehicles Act* may be provided in affidavit form.

MEETING:

A public meeting will be held at 2.00 p.m. on Friday, the 3rd day of October, 1980, at the Board's Chambers, Britannica House, 151 Bloor Street West, 10th Floor, Toronto, Ontario, to discuss the proposed schedule and any matters relevant to an expeditious hearing of these applications.

Interested parties or their counsel are invited to attend and present their views.

Parties unable to attend are encouraged to send their comments in writing to the Secretary of the Board c/o Miss C. H. Hueston.

(5704A) 38 B. B. ALEXANDER,
Chairman.

The following applications for approval of tariff of tolls, having been referred to The Ontario Highway Transport Board pursuant to Section II of *The Public Vehicles Act*, R.S.O. 1970, Chapter 392, will be heard by The Board at its Chambers, Britannica House, 151 Bloor Street West, 10th Floor, Toronto, Ontario, On Friday the 10th day of October, 1980, at 9.00 a.m. (E.S.T.).

The Board shall entertain representations by any persons presenting themselves at the time and place hereinbefore described.

For greater particularity the new tariff of tolls may be seen by the public at The Ontario Highway Transport Board's Chambers, Britannica House, 151 Bloor St. W., 10th Floor, Toronto, Ontario.

O. Reg. 712/80.

Copper Cliff Smelter Complex.

Made—August 27th, 1980.

Filed—September 2nd, 1980.

R.O.C. 419/80

Copy of an Order-in-Council approved by Her Honour the Lieutenant Governor, dated the 27th day of August, A.D. 1980.

The Committee of Council have had under consideration the report of the Honourable the Minister of the Environment, wherein he states that,

WHEREAS acidic precipitation adversely affects the natural environment, including the lakes and rivers, of the Province of Ontario;

WHEREAS sulphur dioxide emitted from non-ferrous smelting operations is one of the most significant Ontario contributors to the acidic precipitation phenomenon;

WHEREAS Inco Limited's Copper Cliff Smelter Complex in The Regional Municipality of Sudbury is the major source in Ontario of sulphur dioxide emissions and thus contributes to the level of acidic precipitation in Ontario;

WHEREAS questions have arisen regarding particular limits to be placed on the total amount of sulphur dioxide emitted from the Copper Cliff Smelter Complex;

WHEREAS the particular limits in the appended Regulation have been considered by the Executive Council and found to be appropriate;

The Honourable the Minister of the Environment therefore recommends that the appended Regulation be made under *The Environmental Protection Act, 1971*, to protect the natural environment of Ontario and to remove, at the earliest possible time, any uncertainty as to the interim limits which emissions from the Copper Cliff Smelter Complex will be required to meet while studies are going on to determine whether or not any lower limits should be imposed.

The Committee of Council concur in the recommendation of the Honourable the Minister of the Environment and advise that the same be acted on.

REGULATION MADE UNDER THE ENVIRONMENTAL PROTECTION ACT, 1971

COPPER CLIFF SMELTER COMPLEX

1. This Regulation applies to Inco Limited and to emissions of sulphur dioxide from the Copper Cliff Smelter Complex of Inco Limited in The Regional Municipality of Sudbury. O. Reg. 712/80, s. 1.

3.—(1) Emissions during each of the four periods, each beginning on the day this Regulation is filed and respectively ending at the end of the third and fourth calendar quarters of 1980, and the first and second calendar quarters of 1981, shall not exceed, in the average, 2500 tons per working day.

(2) Emissions during each twelve-month period respectively ending at the end of the third and fourth calendar quarters of 1981, each calendar quarter of 1982 and the first three calendar quarters of 1983, shall not exceed, in the average, 2500 tons per working day.

(3) Emissions during each twelve-month period ending at the end of the fourth calendar quarter of 1983 and each calendar quarter thereafter shall not exceed, in the average, 1950 tons per working day.

(4) For purposes of subsections 1, 2 and 3, the amount of sulphur dioxide emitted on any working day for which an accurate record is kept shall be the amount so recorded and for which an accurate record is not kept shall be deemed to be the greater of,

(a) the number of tons that can be established to have been emitted; or

(b) 2500 tons for a working day up to the 31st day of December, 1982 and 1950 tons for a working day after the 31st day of December, 1982.

(5) Where, in the average, emissions exceed 2500 tons per working day with respect to any period referred to in subsection 1, there shall be deemed to be no contravention of subsection 1 in respect of that period if, in the average, emissions per working day for a

THE ENVIRONMENTAL ASSESSMENT ACT, 1975

O. Reg. 755/80.

Exemption—Ministry of Transportation
 and Communications—MTC-21/2.
 Made—September 16th, 1980.
 Approved—September 3rd, 1980.
 Filed—September 17th, 1980.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT, 1975

EXEMPTION— MINISTRY OF TRANSPORTATION AND COMMUNICATIONS—MTC-21/2

Having received a request from the Minister of Transportation and Communications for a revision pursuant to section 30 of the Act of exemption order MTC-21 for the following undertaking:

The planning phase of those projects listed below; where the planning phase consists of that portion of the Ministry of Transportation and Communications' (MTC) project development process that results in the identification of a preferred highway route; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The Crown and the public will be damaged by the interference with the delivery of projects on MTC's capital construction program for which a planning study was completed prior to the Act being proclaimed in force and for which construction of one portion was completed prior to January 1, 1980 or for which the planning was reviewed as part of the Parkway Belt West hearing.

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment, which would result from the undertaking being subject to the application of the Act; and

Having been advised that MTC has since 1971, routinely applied environmental planning techniques and public participation to its projects at the planning stage;

The undersigned is of the opinion that it is in the public interest to order and orders, subject to the terms and conditions set out below, that the undertaking is exempt from the application of the Act for the following reason:

- A. The reasons for this order are those set out in MTC-21 which was printed at pages 3235/6 of the July 7, 1979 issue of *The Ontario Gazette*

together with the explanations given in the notes following the list below.

This exemption is subject to the following terms and conditions:

1. Exemption Order MTC-21 is replaced by this order.

2. This exemption order permits the designation of a highway route and the acquisition of land but does not permit the construction of a highway.

3. For those projects the construction of which was not substantially completed by the first day of January, 1980, the Ministry of Transportation and Communications shall prepare and submit an environmental assessment covering the design and construction of such projects.

4. Where an approval to proceed has been obtained under the Act for an undertaking which includes all or part of a project listed in the schedule, such work or part thereof shall be carried out in accordance with the terms and conditions of the approval.

5. Where an Environmental Assessment is submitted for the planning phase of part of a project on the attached schedule, the part of the project for which the Environmental Assessment is submitted shall be deemed to be a separate undertaking from the program and not exempt under this order.

2. The routes of items 6, 8 and 9 are entirely within the Parkway Belt West and as such have already been subject to public study and are therefore added to the planning phase exemption.
3. Item 13 was originally listed as that portion of Hwy. 427 between Rexdale Blvd. and Hwy. 7. The change confirms that a single planning study was completed for that portion of Hwy. 427 between Hwy. 401 and Hwy. 7 and one portion was substantially completed by January 1, 1980 and therefore is subject to the exemption.
4. Item 11 is entirely within the Parkway Belt West and as such has already been subject to public study and is therefore subject to the exemption.
5. Item 17 has been added to the planning phase exemption because the planning was completed prior to proclamation of the Act and one portion was substantially completed by January 1, 1980.
6. The planning phases of the other items have been completed in accordance with MTC-21 and therefore this order does not make any changes with respect to them. They are listed so that there will be a single listing of this type of exemption.

THE ENVIRONMENTAL ASSESSMENT ACT, 1975

O. Reg. 756/80.

Exemption—Ministry of Transportation
and Communications—MTC-32.

Made—September 16th, 1980.

Approved—September 3rd, 1980.

Filed—September 17th, 1980.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT, 1975

EXEMPTION— MINISTRY OF TRANSPORTATION AND COMMUNICATIONS—MTC-32

Having received a request from the Toronto Area Transit Operating Authority, hereinafter referred to as TATO, a public body and Crown agency reporting to the Minister of Transportation and Communications, that an undertaking, namely:

The expansion of parking facilities at Guildwood and Old Cummer Go Rail Stations,

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. TATO and the Province will be interfered with and damaged by delays in the implementation of its 1980 construction program, which may in turn affect the implementation of the 1981 program; and
- B. The commuting public will be interfered with and damaged by delays in the needed expansion of parking capacity at Guildwood and Old Cummer Go Rail Stations; and
- C. The residents of the neighbourhoods surrounding the two stations will be interfered with by delays in correcting a parking capacity deficiency that results in improperly parked cars and interference with the movement of cars into and out of the stations as well as on adjacent roadways.

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment, which would result from the undertakings being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders, subject to the terms and conditions set out below, that the undertaking is exempt from the application of the Act for the following reasons:

- A. TATO has applied the environmental assessment process, as described in its environmental assessment class document

B1, Expansion of an Existing Commuter Rail Station, to the planning and design of the undertaking; and

- B. The B1 document has not yet received the final approval of the Minister of the Environment, for reasons that are not related to the comprehensiveness of the document; and
- C. The undertaking is minor in nature and is unlikely to have any significant effects on the environment; and
- D. TATO A will continue to follow the planning process outlined in its Class Environmental Assessment document B1.

This exemption order is subject to the following terms and conditions:

1. TATO A will plan and design the undertaking in accordance with the environmental assessment class document B1, and in compliance with the draft conditions of approval appearing in the notice of completion of the government review of that document dated March, 1980.
2. This order does not apply with respect to any expansion carried out after approval of the undertaking for which environmental assessment class document B1 has been submitted. O. Reg. 756/80.

ORDER MADE UNDER

EXEMPTION—
MINISTRY OF TRANSPORTATION
AND COMMUNICATIONS—MTC-31

Having received a request from the Minister of Transportation and Communications that an undertaking namely:

The activity of carrying out planning, design, and construction of the Highway 17 Bypass of the Town of Kenora,

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

1. The public will be interfered with by the resulting delays in local expenditures which will be incurred during construction of the project by the Ministries of Northern Affairs and Transportation and Communications.
2. The Crown will be damaged by an increase in the costs of, and interfered with by the delay in the completion of, a project for which a planning study was completed prior to the Act being proclaimed in force; and

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

I am of the opinion that it is in the public interest to order and do order that the undertaking is exempt from the application of the Act for the following reasons:

1. Planning for the undertaking was completed prior to the Act coming into force; and
2. The Cabinet has directed that the undertaking be exempted from the provisions of the Act; and
3. Public input was solicited through a public participation program as part of the planning for this undertaking.

This exemption is subject to the following terms and conditions:

1. The Ministry of Transportation and Communications shall prepare and submit the appropriate environmental status statements for both planning and design of the under-

taking, for information and monitoring purposes. The submission will be forwarded to MOE at least 30 days prior to the commencement of construction.

2. In completing the design, construction and restoration stages of the project, MTC will carry out this project with due regard in environmental matters and will work closely with the affected Ministries to resolve where possible any concerns which they may have.
3. Where any part of the undertaking involves work for which an approval to proceed has been given under the Act, such part will be done in accordance with the environmental assessment, the approval and any conditions therein. O. Reg. 776/80.

ORDER MADE UNDER
THE ENVIRONMENTAL ASSESSMENT
ACT, 1975

EXEMPTION—
MINISTRY OF TRANSPORTATION
AND COMMUNICATIONS—MTC-30

Having received a request from the Toronto Area Transit Operating Authority, hereinafter referred to as TATO, a public body and Crown agency reporting to the Minister of Transportation and Communications, that an undertaking, namely:

The provision of satellite bus storage facilities ("storage facilities") on property not already used for bus storage,

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

A. TATO and the Province will be interfered with and damaged by delays in the provision of storage facilities resulting in higher costs or the acquisition of desirable sites by other interests; and

B. The commuting public will be interfered with and damaged by delays in the needed improvements to TATO's overnight bus storage system.

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

A. Recognizing that timing and cost are often critical factors in the acquisition of space that is suitable for bus storage, the interference with TATO's satellite bus storage program which would be caused by the application of the Act to the provision of storage facilities would in some cases be undue; and

B. The undertaking is unlikely to have any significant adverse effects on the environment and, therefore, the interference with TATO's bus operations which would be caused by the application of the Act would be undue; and

C. TATO has agreed to prepare and submit an environmental assessment for any storage facility for which significant environmental effects are anticipated.

This exemption order is subject to the following terms and conditions:

1. This order shall not apply to any storage facility for the storage of more than 10 buses and no more than 10 buses may be stored at any site provided under this order.
2. TATO shall provide for the protection and wise management in Ontario of the environment by reviewing each prospective storage facility prior to leasing or purchase with a view to identifying and addressing potential environmental concerns.
3. No property may be acquired for a storage facility unless it is zoned industrial or highway commercial or has some similar zoning designation compatible with the proposed use.
4. Where a bus is not stored in heated premises at a storage facility, it shall be equipped with a

block heater or some other device to make long warm up periods in cold weather unnecessary and the device shall be used.

5. Maintenance at storage facilities shall be restricted to minor matters such as bus washing, oil changing, and fueling.

6. Storage for which significant environmental problems are anticipated shall not be exempted by this order, but shall require individual environmental assessments.

7. This order does not apply to a storage facility for which an environmental assessment is submitted to the Minister for approval.

8. Where an approval to proceed has been obtained under the Act for an undertaking which includes all or part of a storage facility, such storage facility or part thereof shall be carried out in accordance with the terms and conditions of the approval. O. Reg. 777/80.

THE ENVIRONMENTAL ASSESSMENT ACT, 1975

O. Reg. 778/80.

Exemption—Ontario Energy

Corporation—OEC-1.

Made—September 18th, 1980.

Approved—July 31st, 1980.

Filed—September 23rd, 1980.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT, 1975

EXEMPTION—ONTARIO ENERGY CORPORATION—OEC-1

Having received a request from the President of the Ontario Energy Corporation that an undertaking, namely:

A joint venture project between the Ontario Energy Corporation and Teleride Corporation Limited for developing, producing and marketing computerized transit control and information systems to urban transit authorities in Ontario and others,

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The Crown will be damaged and interfered with by the undue expense required to prepare an environmental assessment and the resulting delay, which would impede the implementation of energy conservation policy initiatives aimed at developing energy-efficient transportation systems and encouraging greater use of public transit;
- B. The public will be interfered with by the delay in development of facilities which will provide more efficient public transit.

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. Due to the research and marketing nature of the undertaking it is not likely to have any significant adverse environmental effects. Therefore, the interference which would be caused by the application of the Act would be undue;
- B. Computerized scheduling information, accessible to both the transit authority and the public transportation user, will increase the overall efficiency of urban transit;
- C. Increased efficiency of urban transit will increase demand for public transportation and will cause a significant shift from passenger car transport to urban transit resulting in a net conservation in energy utilization;
- D. Increased efficiency will reduce operating cost and decrease the need for Government subsidization of urban transit. O. Reg. 778/80.

ORDER MADE UNDER
THE ENVIRONMENTAL ASSESSMENT
ACT, 1975

EXEMPTION—ONTARIO ENERGY
CORPORATION—OEC-2

Having received a request from the President of the Ontario Energy Corporation that an undertaking, namely:

An exploration program to explore for mineral deposits, especially lignite, in the Cretaceous Basin in the James Bay Lowlands,

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that the undertaking will have no significant adverse effect on the environment and is necessary for the implementation of Provincial energy policy initiatives aimed at developing Ontario's ability to meet more of its own energy needs.

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. Meeting the EA requirements at this time would prevent the exploration activities from occurring this summer season;
- B. The undertaking will involve helicopter reconnaissance, surficial geological examination and augering to determine the extent of the lignite beds near the observed outcrops. Additional diamond drilling may be undertaken if warranted. Clean-up activities should mitigate adverse environmental effects carried by these activities;
- C. The undertaking supports Provincial Government Policy initiatives as outlined in the Ministry of Energy document, *Energy Security for the Eighties: A Policy for Ontario*;
- D. The undertaking could help to develop indigenous fossil fuel supplies;
- E. The undertaking could stimulate further exploration activity in the area.

This exemption is subject to the following terms and conditions:

1. The Ontario Energy Corporation will provide the Regional Offices of the Ministries of the Environment and Natural Resources with:

- (a) A detailed description of where exploration will take place;
- (b) An outline of what exploration activities and mitigation measures will take place during and after exploration is completed.

2. This exemption order terminates December 31, 1980. O. Reg. 779/80.

THE ENVIRONMENTAL ASSESSMENT ACT, 1975

O. Reg. 780/80.

Exemption—Ministry of Natural
Resources—MNR-32.

Made—September 16th, 1980.

Approved—September 3rd, 1980.

Filed—September 23rd, 1980.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT, 1975

EXEMPTION—MINISTRY OF NATURAL RESOURCES—MNR-32

Having received a request from the Minister of Natural Resources that an undertaking, namely:

The activity of dredging the Keating Channel at the mouth of the lower Don River and portions of the Inner Channel and disposing of the resultant spoils in the existing dredge spoil enclosure on the south side of the Leslie Street spit,

be exempt from the application of the Act pursuant to Section 30; and

Having been advised by the Minister of Natural Resources that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The public, and particularly the industries and services located in the lower Don area, could be significantly damaged by any flooding of the lower Don River through property damage, loss or interruption of economic activities, and the destruction of the physical resources for which the flood protection conservation mandate is shared by the Ministry of Natural Resources and the Metropolitan Toronto and Region Conservation Authority;
- B. The persons referred to in paragraph A above will be unduly interfered with by the increased risk which would be caused by the interruption of dredging activities while the environmental assessment required by condition 1 is prepared and considered.

Having weighed such injury, damage, or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The deposition of material within the Keating Channel and the Inner Harbour restricts the flow of flood waters and thus greatly increases the potential for flooding, particularly as a result of ice jams;
- B. Indications are that the lower Don River is the location which would be most seriously affected by a major flood in the Metropolitan Toronto Area;
- C. Due to the topography surrounding the mouth of the river, any flood which overtopped the channel could cause significant damage to the various industries and services located in the area;
- D. An environmental assessment of the undertaking will be prepared and submitted for approval under the Act prior to expiry of this exemption by the Metropolitan Toronto and Region Conservation Authority acting as an agent of the Ministry of Natural Resources;
- E. This exemption is temporary in nature and is being put forward to allow for the necessity of implementing remedial measures designed to minimize the risk in relation to the damages mentioned above, during the time required to prepare an environmental assessment for the undertaking.

This exemption is subject to the following terms and conditions:

1. By May 31, 1981, the Metropolitan Toronto and Region Conservation Authority acting as an agent of the Ministry of Natural Resources shall by May 31, 1981, prepare and submit for approval under the Act an environmental assessment with respect to the proposal to control flooding and other related problems created by silting in the lower Don River, the Keating Channel and the Inner Channel.
2. This exemption shall expire on March 31, 1982 or at such time as the decision with respect to approval to proceed with the undertaking has been made under Section 14 of the Act, whichever date is the earliest. O. Reg. 780/80.

(3a) Notwithstanding subsection 3, where on or after the first day of January, 1982, a pension plan is established or amended resulting in the creation of or increase to pension benefits for retired former employees or their beneficiaries, the amount of the special payments required to be paid into the plan by the employer with respect to the initial unfunded liability created with respect to such pension benefits shall be at least the greater of,

- (a) the special payments determined in accordance with subsection 3; or
 - (b) equal annual amounts equal to the initial annual rate of payment of the benefits created until such unfunded liability is liquidated.
- O. Reg. 791/80, s. 1, *part*.

(4a) Notwithstanding subsection 4, where a plan is terminated or wound up, an employer shall pay into the plan on the date of such termination or wind up at least a proportionate amount of all current service costs and special payments for the current fiscal year of the plan that have been incurred but are not yet due. O. Reg. 791/80, s. 1, *part*.

2. Section 11 of the said Regulation, as amended by section 2 of Ontario Regulation 714/75, is revoked and the following substituted therefor:

11.—(1) Upon the termination or winding up of a pension plan, the administrator of the plan shall file with the Commission a report prepared by a person authorized by section 5, setting out the nature of the benefits to be provided under the plan and a description of the methods of allocation and the priorities for determining the full or partial benefits of the members thereof.

(2) Where a pension plan is terminated or wound up, all funds held for the purpose of providing pension benefits and any other benefits provided under the plan shall continue to be subject to the requirements of this Regulation.

(3) No assets of the plan shall be applied toward the provision of any benefits until the Commission has approved the report referred to in subsection 1 except that the administrator of the plan may pay as they fall due any periodic payments to persons entitled thereto and may pay any refunds of the employee contributions to persons entitled thereto.

(4) Notwithstanding the terms of the plan, where a pension plan is terminated or wound up, no part of the assets of the plan shall revert to the benefit of the employer unless,

- (a) provision has been made for payment of all pension benefits and other benefits under the terms of the plan to employees, former employees, pensioners, dependants and estates;
- (b) in calculating benefits for the purposes of clause *a*, all benefits provided to members of the plan in respect of service shall be treated as fully vested as of the date of termination or winding up without regard to age or service conditions for vesting under the terms of the plan;

(5) For the purposes of subsection 9 of section 21 of the Act, the person preparing the report required pursuant to subsection 1 shall reduce the amounts of the additional pension benefits to which a person may otherwise be entitled to such extent as will in his opinion prevent unfair impairment of the other pension benefits

accrued under the plan, provided that the aggregate value of any additional pension benefits already paid or proposed to be paid after such reduction shall be not less than the value, as estimated by the person preparing the report, of special payments made in respect of such additional pension benefits.

(6) Where a pension plan is terminated or wound up in part, the rights and interests of the employees and former employees thereby affected shall be not less than those to which such employees and former employees would have been entitled if the whole of the pension plan had been terminated or wound up on the same date as such partial termination or winding up.

(7) Where a pension plan is terminated or wound up in whole or in part, any escalated adjustment as defined in section 2a to which a member or a former member of the plan affected by the termination or winding up is entitled, whether such escalated adjustment is currently being paid or has not commenced, shall, to the extent that it has not been prefunded, not adversely affect any pension benefit or other benefit provided under the plan which is terminated or wound up.

(8) Except as provided in subsection 9, suspension or cessation of employer contributions to a pension plan or the cancellation of a certificate of registration of a pension plan shall be construed as a termination of the plan.

(9) Where employer contributions to a pension plan cease on or after the 1st day of January, 1965, as the result of the adoption of a new plan, the original pension plan shall be deemed not to have been terminated or wound up under this section or under subsection 7 of section 21 of the Act and the benefits of the original plan shall be deemed to be benefits associated with the new plan in whole or in part in respect of service prior to the establishment of the new plan, whether or not the assets and liabilities of the original plan have been consolidated with those of the new plan. The Environmental Assessment Act, 1975

NOTICE OF APPROVAL TO PROCEED WITH THE UNDERTAKING

RE: An Environmental Assessment for the Proposed Long-Term Improvements to Highway 144 at Sudbury between Sudbury West City Limits and Regional Road 8 in Levack

Proponent:

The Minister of Transportation and Communications

E.A. File No. 1-79-0012-000

TAKE NOTICE that the period for requiring a hearing, provided for in the *Notice of Acceptance of the Environmental Assessment* for the undertaking, expired on July 29, 1980. I have received no notices requiring a hearing by the Environmental Assessment Board with respect to approval to proceed with the undertaking.

I have considered the purpose of *The Environmental Assessment Act, 1975*, and the environmental assessment of the undertaking as accepted by me. No further submissions have been received with respect to the environmental assessment.

Accordingly, I hereby give approval to proceed with the undertaking subject to the conditions given on the attached schedule.

Reasons:

The reasons for giving approval are:

- (1) I have one submission and no notices requiring a hearing by the Environmental Assessment Board after giving the *Notice of Completion of Environmental Assessment Review* dated April 23, 1980 and no submissions or notices requiring a hearing by the Environmental Assessment Board after giving the *Notice of Acceptance of the Environmental Assessment*, dated July 7, 1980. I am not aware of any outstanding issues with respect to this undertaking which suggest that a hearing should be called. The submission received was from the Minister of Transportation and Communications requesting a change to two of the conditions of approval recommended in the review. I consider the changes to be reasonable and the amended conditions are included on the attached schedule.
- (2) The environmental assessment together with the Government review and the attached conditions sufficiently fulfill the purpose of *The Environmental Assessment Act*, which is the betterment of the people of the whole or any part of Ontario by

providing for the protection, conservation and wise management in Ontario of the environment.

HARRY PARROTT, D.D.S.,
Minister of the Environment,
135 St. Clair Avenue West,
14th Floor,
Toronto, Ontario M4V 1P5.

Approved by
O.C. No. 2485/80

Dated at Toronto, the 24th day of September, 1980.

CONDITIONS OF APPROVAL

These conditions apply to the undertaking as described in item 2 of the Resume of the EA (Form 1).*. As described under the "Type I—Environmental Assessment Report" in Appendix A of the review, this approval allows the facility to be designed and property associated with the undertaking to be purchased. In the following conditions the term "subsequent reports" refers to the "Type II" or, possibly, "Type III" Environmental Assessment Reports, or an ESR for portions of the highway (all as described in Appendix A).

Often conditions of approval have to be met before an undertaking may proceed. In this case approval amounts to an approval in principle for the location of the highway and does not lead immediately to physical construction: consequently the conditions apply to the design and planning process that occurs between this approval and final approval under subsequent EAs.

The specific conditions recommend:

1. MTC shall conduct a water quality analysis and an evaluation of the potential effects of the selected route on the water bodies affected by the route, and shall in any subsequent reports include the results of the evaluation and the details of the proposed mitigation methods for the potential impacts identified by the evaluation.
2. MTC shall:
 - (a) consult with the Historical Planning and Research Branch of the Ministry of Culture and Recreation (MCR), concerning the scheduling of a survey of heritage resources associated with the undertaking and methods of mitigating any impacts on such resources; conduct an archaeological, historical and architectural survey of;
 - (b) all sections of the selected route;
 - (c) for those aggregate sources to be exploited in constructing the project provide the Historical Planning and Research Branch of MCR with as much advance notice as possible as to the aggregate sources which will be used, to enable MCR staff to review the site for potential impacts;

*Form 1 is required by the Act's Regulations and provides a summary of the main topics that must be discussed in an EA to meet the provisions of s. 5 (3) of the Act.

- (d) identify, record and assess the potential impact of the undertaking on sites of archaeological, historical and architectural interest;
 - (e) include consideration of the mitigation or avoidance of adverse impacts and the enhancement of beneficial impacts on these sites in determining alignment adjustments, landscape design and route markers and signs;
 - (f) propose a schedule for detailed heritage survey and salvage procedures; and
 - (g) describe the results of the survey, the schedule and the consultation in any subsequent reports.
3. MTC shall:
- (a) assess the potential noise impact on existing residential areas within 400 feet of the edge of pavement;
 - (b) consult with The Regional Municipality of Sudbury and the Northeastern Region Office of MOE on possible measures to mitigate identified adverse noise impacts; and,
 - (c) document this assessment and consultation in any subsequent reports together with the details of proposed mitigation measures for the identified impacts.
4. MTC shall:
- (a) consult with the Sudbury District Office of the Ministry of Natural Resources and the Nickel District Conservation Authority regarding the design of the bridge widenings at the crossings of the Vermilion and Whitson Rivers and the major culverts at Whitewater, McKenzie and Windy Creeks and in deciding the timing of construction at these points;
 - (b) comply with the requirements of these agencies; and
 - (c) document this consultation and the specific mitigating measures decided upon in any subsequent reports.
5. The amount, type and origins of the existing contamination in the subgrade between Sudbury west city limits and Azilda shall be described in any subsequent reports and the Sudbury District Office of MOE shall be consulted as to: any possible environmental problems that may result from the contamination; the manner in which the subgrade may be used; and any requirements of the Office with regard to such use.
6. MTC shall consult with the Sudbury and District Health Unit during the design stage of the proposed facility to ascertain whether any private sewage systems may be affected by the construction of the undertaking and shall describe in any subsequent reports this consultation and the remedial measures which will be carried out.
7. MTC shall: survey the selected route for any wells that may be affected by the construction of the undertaking; conduct water quantity and quality tests, including, where appropriate, pump tests on the wells; consult with the Sudbury District Office of MOE regarding such tests, appropriate mitigating actions and monitoring arrangements; and shall describe in any subsequent reports the results of the survey and of the tests, the consultation, and any mitigation measures and monitoring arrangements.
8. Construction activities that could cause air and noise problems shall be described in any subsequent reports along with proposed mitigation measures for any such problems.
9. If the Sudbury Northwest By-pass, which is currently under review under the Act, receives approval it will be necessary for an intersection with the undertaking to be constructed. The relevant subsequent reports for this undertaking shall describe how this requirement for an intersection with the Sudbury Northwest By-pass will alter the design of the highway in the vicinity of the intersection.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT, 1975

EXEMPTION—MINISTRY OF NATURAL RESOURCES—MNR-26

Having received a request from the Minister of Natural Resources that the undertaking, namely:

Disposition by the Ministry of Natural Resources of certain or all rights to Crown resources for activities not otherwise subject to the Act,

be exempted from the application of the Act pursuant to section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following damage or interference with the person indicated will occur:

- A. The Crown will be interfered with and damaged by the undue expense required to prepare Environmental Assessments for undertakings that will have no significant adverse effect on the environment.

Having weighed such damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The projects within this undertaking are primarily administrative activities. Where the disposition of rights to Crown resources is associated with an activity which is subject to the Act, that disposition is not exempt by this order and will not be proceeded with under this order. In the event that a disposition of rights to Crown resources associated with activities which are not subject to the Act is initiated but, where, as a result of the notification re-

quirement described in condition 2, below, the associated activity is designated by regulation as being subject to the Act, that portion of the disposition which has not been completed will not be exempted under this order;

- B. Activities which the Ministry of Natural Resources may undertake to initiate applications for the disposition of rights to Crown resources may, themselves, be undertakings which are subject to *The Environmental Assessment Act, 1975* and may not be proceeded with until approval under the Act has been received;
- C. Condition 2, to which this order is subject will ensure that the Government and the public are given adequate opportunity to become informed of the Ministry of Natural Resources' intentions to issue dispositions of rights to Crown resources associated with activities which may have significant effects on the environment. The Government may, on the basis of this information, act to designate by regulation such activities under the Act.

This exemption order is subject to the following terms and conditions:

1. This order does not exempt disposition activities which are subject to the Act as a result of Section 6 of the Act, namely, disposition activities to enable another undertaking, for which an environmental assessment is required, to be carried out.
2. Where a disposition is for an activity for a major commercial or business enterprise or activity, including all major resource extraction and commercial recreation developments, which is not subject to the Act, the following practices will be instituted by the Ministry of Natural Resources:
 - (a) The disposition applicant will be notified, upon application for disposition, that the proposed activity for which the disposition is being sought may ultimately be subject to the Act;
 - (b) This notification shall describe: the manner in which such a development may become subject to the Act, the appropriate agencies to contact for further information and the prohibitions attached to disposition should the project become subject to the Act before the disposition is completed. An illustrative format which may be used for such notices is attached as Schedule A;
 - (c) A copy of such notice shall be sent by the Ministry of Natural Resources to

the Director of the Environmental Approvals Branch of the Ministry of the Environment. Such notice shall be received by the Ministry of the Environment at least 15 days prior to the Ministry of Natural Resources granting the disposition application. All notices received shall be kept with the records of environmental assessments and made available to the public in the same way as such records. Responsibility for initiating the designation of proposed activities associated with disposition applications under the Act, and for notifying the disposition applicant and the Ministry of Natural Resources of any decision, will rest with the Ministry of the Environment;

- (d) Should the Ministry of Natural Resources take an initiative which directly generates applications for disposition for, or facilitates the eventual establishment of, a major commercial or business enterprise or activity, including all major resource extraction and commercial recreation development, the initiating office of the Ministry of Natural Resources shall notify the Director of the Environmental Approvals Branch of the Ministry of the Environment of its intent to do so. Such notice shall be received by the Ministry of the Environment at least 15 days prior to the Ministry of Natural Resources exercising the initiative. Such notices shall be kept with the records of environmental assessments and made available to the public in the same way as such records. The Ministry of the Environment will notify the Ministry of Natural Resources of any intent to regulate the activities of the Ministry of Natural Resources or the private sector under the Act.
3. Where a disposition which otherwise would be exempt under this order, is being carried out in connection with, or is part of, an undertaking for which an environmental assessment has been done and approval to proceed received, the disposition shall not be exempt under this order but shall be carried out in accordance with the approval to proceed, and where the reasons for a condition of approval indicate the approval should apply to particular dispositions the disposition shall be deemed not to be exempt hereunder.
4. This order will be reviewed periodically after considering the notices submitted under condition 2, above. This exemption shall terminate three years after it is granted, unless the Minister of the Environment

decides to extend the term of the order. Notice of intent to apply for any extensions of the order shall be published in *The Ontario Gazette* by the proponent at least 60 days prior to the date upon which the extended period of exemption is proposed to commence. O. Reg. 809/80.

ORDER MADE UNDER
THE ENVIRONMENTAL ASSESSMENT ACT,
1975

EXEMPTION—MINISTRY OF NATURAL
RESOURCES—MNR-28

Having received a request from the Minister of Nat-
ural Resources that the undertaking, namely:

The activity of acquiring property, includ-
ing the activity of obtaining and exercising
options to purchase property by, and for the
Minister of Natural Resources,

be exempted from the application of the Act pursuant
to section 30; and

Having been advised that if the undertaking is sub-
ject to the application of the Act, the following dam-
age or interference with the person indicated will oc-
cur:

- A. The Crown will be interfered with and
damaged by the undue expense which may
be a result of persons speculating on the real
estate value of sites which the Ministry of
Natural Resources may be contemplating
acquiring.

Having weighed such damage or interference with
the betterment of the people of the whole or any part
of Ontario by the protection, conservation and wise

management in Ontario of the environment which
would result from the undertaking being subject to the
application of the Act;

The undersigned is of the opinion that it is in the
public interest to order and orders that the undertak-
ing is exempt from the application of the Act for the
following reasons:

- A. The Ministry of Natural Resources acquires
and holds property for a broad range of
purposes, including the exercising of its
mandate to hold and manage natural re-
sources and Crown land generally; for this
reason the acquisition of property by the
Ministry of Natural Resources does not nec-
essarily predetermine its use for a specific
project. This leaves decisions related to pro-
jects which are subject to the Act open to
full scrutiny under the Act, without biasing
the consideration of alternative sites;
- B. The undertaking is exercised in accordance
with formalized land use and resource man-
agement planning processes of the Ministry
of Natural Resources which are directed to-
wards the protection, conservation and
wise management of the environment. The
undertaking will be exercised in accordance
with the procedures described in the vari-
ous Class EAs of the Ministry of Natural
Resources where the use of the property to
be acquired under this order is the subject
of any of these Class EAs.

This exemption order is subject to the following
terms and conditions:

1. Where the property being considered for ac-
quisition is for the purposes of establishing
an undertaking which is the subject of a
Class Environmental Assessment and
which has received approval under the Act,
the activity of acquiring property shall not
be exempt under this order but shall be car-
ried out in accordance with the provisions
of the Class Environmental Assessment and
approval.
2. Where the property being considered for ac-
quisition is for the purposes of establishing
an undertaking which is not referred to in
Condition 1 but is subject to the Act, the ac-
tivity of obtaining an option or entering into
an agreement of purchase and sale to ac-
quire the property is exempt under this or-
der provided that, in the case of an agree-
ment of purchase and sale, the agreement is
made conditional on the Act being complied
with prior to closing. However the activity
of carrying out the agreement or exercising
such an option to complete the acquisition
of the property is not exempt under this or-
der and shall not be carried out until ap-
proval is received under the Act.

3. Where the property being considered for acquisition is the subject of an Official Plan, Restricted Area or Zoning By-laws or an Order under Section 32 of *The Planning Act*, and the purpose for which the property is to be acquired would be in conflict with the Official Plan, Restricted Area or Zoning By-law or Order, if the Official Plan, Restricted Area or Zoning By-law or Order were to bind the Crown, the acquisition shall not be exempt under this order.

4. The present use of a property acquired pursuant to this order shall not be substantially changed before an approval to proceed with the proposed change is received under the Act.

5. The mere fact of the acquisition of property or options to acquire property pursuant to this Order shall not be used by the Ministry of Natural Resources to justify any particular undertakings which may involve the property in question, and for which an environmental assessment is submitted, nor shall it be given any weight in the decisions that must be made under the Act on the undertakings in question.

6. The Ministry of Natural Resources shall, at least once each year, prior to the commencement of undertakings proposed under this order, file with the Director of the Environmental Approvals Branch of the Ministry of the Environment, a list of undertakings exempt pursuant to this order, which lists shall identify the undertaking, indicate its purpose, location and estimated date of completion, and upon completion of the undertakings identified in the lists shall be kept with the records of environmental assessments and made available to the public in the same way as such records.

7. This order will be reviewed periodically after considering the lists submitted under Condition 6, above. This exemption shall terminate three years after it is granted, unless the Minister of the Environment decides to extend the term of the order. Notice of intent to apply for any extensions of the exemption order shall be published in *The Ontario Gazette* by the proponent at least 60 days prior to the date upon which the extended period of exemption is proposed to commence. EXEMPTION—MINISTRY OF NATURAL RESOURCES—MNR-30

Having received a request from the Minister of Natural Resources that an undertaking, namely:

ment Projects,

sition for an existing Provincial Park or Park Reserve; or for a sewage lagoon in or for a Provincial Park; and

- (e) Establishing and amending boundary regulations for existing Provincial Parks and Park Reserves,

be exempted from the application of the Act pursuant to Section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. The Ministry of Natural Resources is presently preparing an Environmental Assessment for the Provincial Parks Program for approval under the Act. Its work will be hampered by having to prepare individual assessments for all Provincial Parks projects at the same time;
- B. Park environmental and recreational features could be damaged in the absence of Provincial Parks projects that address existing park management problems;
- C. Public enjoyment of recreational features may be reduced in the absence of the implementation of Provincial Parks projects;
- D. The realization of Government's Outdoor Recreation Program Objective and economic benefits to local communities would be limited.

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management of the environment which would result from the undertaking being subject to the application of the Act.

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The Ministry of Natural Resources is preparing an Environmental Assessment for the Provincial Parks Program which will be submitted under the Act for acceptance and approval before the expiry of this exemption. This Environmental Assessment will address the activities that make up this undertaking;
- B. This interim exemption will allow Provincial/Parks plans and projects to continue until the Environmental Assessment on the Provincial Parks Program is accepted and the undertaking approved;
- C. The Provincial Parks Program is carried

out within a context of conservation, protection and wise management of the environment. A major feature of the Provincial Parks Program is the preservation of significant, natural and cultural features in the Ontario landscape;

- D. The conditions to which this order is subject will ensure that affected Government agencies and the public are informed of the Ministry of Natural Resources' intentions to implement components of the Provincial Parks Program during the period of this exemption;
- E. A number of activities that make up this undertaking include matters that are similar to certain activities that are presently undergoing review under the Act. As these class Environmental Assessments are accepted and the activities covered by them approved, the Minister of Natural Resources will apply such parts of the procedures specified in the class Environmental Assessments as are appropriate to the activities that make up this undertaking until such procedures, or other procedures, are made directly applicable by the Environmental Assessment referred to in reason A.

This exemption order is subject to the following terms and conditions:

- 1. The Ministry of Natural Resources will provide the Environmental Approvals Branch of the Ministry of the Environment with annual work plans for the Provincial Parks Program that will be fully implemented by March 31, 1982 within 3 months of the approval of this exemption order and at least once a year and no less than 30 days prior to the implementation of any plan or project thereafter. This list will specify the nature, size and location of the plans and projects on the list and may be revised at any time up until September 31, 1981. This list will be kept with the records of environmental assessments and made available to the public in the same way as such records.
- 2. A copy of each plan or project documentation cited on the list noted in Condition 1, shall be made available to the public for examination at the appropriate District Office of the Ministry of Natural Resources at least 30 days before implementation commences along with any other related plans that exist at that time.
- 3. The District Manager of the appropriate District of the Ministry of Natural Resources will ensure the notification of regional Ministry of the Environment staff of plans or projects, cited on the list noted in Condition 1, to be undertaken under this

exemption at least 30 days before implementation and will also inform those agencies, members of the public and groups that are potentially affected by the project of how they can participate in the planning of the project if appropriate; and that they may request that an individual assessment be undertaken pursuant to Condition 8 of this order.

4. The Ministry of Natural Resources will continue its voluntary compliance with *The Planning Act*, its compliance with *The Ontario Water Resources Act* as though it bound the Crown and its compliance with *The Environmental Protection Act, 1971* and the Government's Provincial Parks Policy in carrying out any projects or works as part of the undertaking exempted by this order.
5. Where the carrying out of the undertaking requires that some activity, for which an Environmental Assessment has been done and approval to proceed received or an exemption granted, be conducted, that activity is not exempt under this order but shall be carried out in accordance with the Environmental Assessment and approval to proceed, or the conditions of exemption whichever is applicable.
6. Where a class Environmental Assessment has been accepted and an approval has been issued or an exemption order granted for an undertaking which would include an activity in a Provincial Park or Park Reserve, except for the fact that the activity is in a Provincial Park or Park Reserve, the Ministry of Natural Resources shall follow the procedures in the accepted Environmental Assessment and approval or any conditions of an exemption order with such changes as are necessary to apply them to the activity in the Provincial Park or Park Reserve.
7. This exemption does not apply to any plan or project:
 - (a) where development is likely to modify or disturb the habitat of a species designated under *The Endangered Species Act, 1971*;
 - (b) where the estimated completion cost of a Capital Construction or Lease-Purchase Project is in excess of \$2,000,000, not including any land acquisition costs;
 - (c) where an access road project is proposed on continuous or discontinuous permafrost;

- (d) where physical alterations of a water-course are to be undertaken explicitly to facilitate the development of a canoe route;
 - (e) where fish species not already present in Ontario are to be stocked in waters which are wholly or partially within the boundaries of a Provincial Park or Park Reserve;
 - (f) where a solid waste disposal facility within the boundaries of a Provincial Park or Park Reserve is likely to receive in excess of 1,000 tonnes of waste per year;
 - (g) where a major resource extraction facility or operation is to be developed or substantially upgraded or have its operating restrictions changed significantly or removed within a Provincial Park or Park Reserve;
 - (h) where a major commercial recreation facility is to be developed or substantially upgraded by the private sector within a Provincial Park or Park Reserve;
 - (i) where a master plan for a new undeveloped Provincial Park is being implemented, unless the master plan is for a nature reserve class of park; and
 - (j) where any plan or project carried out in a Park Reserve will change substantially the type and level of use of the Park Reserve.
8. Should it become apparent to the Ministry of Natural Resources that a project exempt under this order meets the criteria set out below, or the public approaches either the Ministry of Natural Resources or the Ministry of the Environment, and upon notice and consultation between Ministries, either Minister may decide that an individual Environmental Assessment be prepared in the following circumstances:
 - (a) where a proposed plan or project generates an unusual amount of public or Government concern;
 - (b) where there are unusual or significant potential environmental impacts not adequately treated in the pertinent planning exercise;
 - (c) where a land area that has significant earth science, life science or cultural features is acquired for the purposes of or is brought into the Provincial Parks Program; and

(d) where a Provincial Park is to be retired.

9. This exemption shall terminate on the date on which approval to proceed with respect to the undertaking described in the Environmental Assessment for the Provincial Parks Program referred to in Reason A is received under the Act and shall not apply to any project for which the implementation is not scheduled to be completed by March 31, 1982.
10. Where an Environmental Assessment is submitted for an individual Provincial Parks plan or project, that plan or project shall be deemed to be a separate undertaking not exempt by this order.
11. Those plans and projects planned under this exemption, but for which implementation is not complete on the date of expiry of this exemption, will have their status under this Act reviewed in connection with the review of the Environmental Assessment of the undertaking referred to in Reason A and if provided for in conditions of approval issued in connection with the undertaking may continue to proceed in accordance with such conditions.
12. During the period covered by this order, the Provincial Parks Program shall be planned, implemented and managed according to the following Provincial Parks' Guidelines and Policies:

Provincial Park Policy
 Ontario Provincial Parks—Planning and Management Policies
 Park Management and Operating Plan Format
 Landscape Design Principles and Guidelines
 Visitor Services Interim Policy.
13. The guidelines and policies cited in Condition 12 and any new policies and guidelines will be placed in the Public Record for this exemption order. O. Reg. 812/80.

- A. The Ministry of Natural Resources is presently preparing a class environmental assessment for the Crown Cottage Lot Program including Lake Planning and resultant Lake Plans for approval under the Act. Their work would be hampered by having to prepare individual assessments for Lake Plans at the same time. Therefore, an interim exemption to allow cottage development to occur is necessary until the

class environmental assessment can be completed and submitted to the Minister of the Environment;

- B. Recreational features could be damaged in the absence of Lake Plans that address existing lake management problems;
- C. Public enjoyment of recreational features may be reduced in the absence of the implementation of Lake Plans;
- D. The objectives of the Government's Crown Cottage Lot Program may not be realized.

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is exempt from the application of the Act for the following reasons:

- A. The Ministry of Natural Resources is preparing a class environmental assessment for the Crown Cottage Lot Program including Lake Planning and the resultant Lake Plans which will be submitted to the Ministry of the Environment for acceptance and approval before the expiry of this exemption. This class environmental assessment will address the activities that make up this undertaking;
- B. A number of activities that make up this undertaking are the subject of class environmental assessments which are presently undergoing review under the Act. As these class environmental assessments are accepted and the activities covered by them approved, this exemption will no longer apply for those activities. Until the activities covered by these class environmental assessments are approved, certain conditional exemptions are in place.

This exemption order is subject to the following terms and conditions:

- 1. This exemption order does not apply with respect to the Lake Plans referred to in Schedule A of exemption order MNR-4 published in *The Ontario Gazette* on November 13, 1976 which remain exempt subject to the conditions of that order.
- 2. All Lake Plans of the Ministry of Natural Resources will be prepared by the process described in the "Interim Lake Planning Guidelines" of May, 1977 (commonly referred to as the Lake Planning Manual).
- 3. The Ministry of Natural Resources will provide the Environmental Approvals Branch of the Ministry of the Environment with a list of Lake Plans that will be fully implemented by January 1, 1982 within two months of the approval of this exemption order. This list may be revised at any time up to May 31, 1981.
- 4. A copy of each Lake Plan shall be made available to the public for examination at the appropriate District Office of the Ministry of Natural Resources at least thirty days before implementation commences. A copy or summary of each Lake Plan to be implemented will be given to the Environmental Approvals Branch of the Ministry of the Environment no less than thirty days before implementation commences, to be kept with the records of environmental assessments and made available to the public in the same way as such records.
- 5. The Ministry of Natural Resources will continue its voluntary compliance with *The Ontario Water Resources Act* and *The Planning Act* as though they bound the Crown, and, its compliance with *The Environmental Protection Act, 1971* in carrying out any projects or works as part of the implementation of a Lake Plan.
- 6. Where the carrying out of the undertaking requires that some activity, for which an environmental assessment has been done and an approval to proceed received or an exemption granted, be conducted, that activity is not exempt under this order but shall be carried out in accordance with the environmental assessment and approval to proceed, or the conditions of exemption whichever is applicable.
- 7. Where an environmental assessment is submitted for a Lake Plan, that plan shall be deemed to be a separate undertaking not exempt by this order.
- 8. This exemption shall terminate on the date on which approval to proceed with respect to the Class Environmental Assessment for Lake Plans referred to in reason A is received under the Act and shall not apply to any project for which the implementation is not scheduled to be completed by January 1, 1982.
- 9. Those projects planned under this exemption, but for which implementation is not complete on the date of expiry of this exemption, will have their status under this Act reviewed in connection with the review of the class environmental assessment of the undertaking referred to in Condition 8 and if provided for in conditions of approval is-

sued in connection with the undertaking may continue to proceed in accordance with such conditions.

10. If the class environmental assessment is not approved before January 1, 1982, the exemption for the undertakings mentioned in Condition 9 will terminate with respect to any undertaking for which an access road, access point or common dock is not completed. O. Reg. 813/80.

THE ENVIRONMENTAL ASSESSMENT ACT, 1975

O. Reg. 851/80.

Exemption—Ontario Hydro—OH-23.

Made—September 10th, 1980.

Approved—August 6th, 1980.

Filed—October 8th, 1980.

ORDER MADE UNDER THE ENVIRONMENTAL ASSESSMENT ACT, 1975

EXEMPTION—ONTARIO HYDRO—OH-23

Having been informed that Exemption Order OH-20, which was published on page 374 of the February 12, 1980 issue of *The Ontario Gazette* which was granted to Ontario Hydro for an undertaking namely:

The activity of Ontario Hydro granting leases, licences or easements to others on properties along transmission line rights-of-way other than properties for which secondary uses have been addressed as part of an individual environmental assessment,

requires Ontario Hydro to submit a program environmental assessment covering this undertaking before

May 1, 1980, and that an assessment with respect to the undertaking is presently being prepared, but is not yet suitable for review, and

be exempted from the application of the Act pursuant to section 30; and

Having been advised that if the undertaking is subject to the application of the Act, the following injury, damage or interference with the persons and property indicated will occur:

- A. Individuals wishing to obtain leases, licences or easements on Ontario Hydro lands will be interfered with by the delay;
- B. Ontario Hydro will be interfered with and damaged by the delay and expense required to prepare individual environmental assessments which could render the proposed secondary use uneconomical.

Having weighed such injury, damage or interference with the betterment of the people of the whole or any part of Ontario by the protection, conservation and wise management of the environment which would result from the undertaking being subject to the application of the Act;

The undersigned is of the opinion that it is in the public interest to order and orders that the undertaking is temporarily exempt from the application of the Act for the following reasons:

- A. Ontario Hydro has agreed to carry out individual environmental assessment procedures for projects within the undertaking which are liable to have such significant effects that an individual environmental assessment would be carried out as proposed in the program environmental assessment being prepared;
- B. Ontario Hydro will consult with the Ministry concerning the granting of leases, licences or easements to others for the use of Ontario Hydro property which will likely cause environmental changes which can be satisfactorily dealt with by either mitigation or restoration;
- C. The submission of the program environmental assessment for review by the Ministry has been delayed in order to resolve deficiencies that have been identified by a review of the assessment within Ontario Hydro;
- D. Satisfactory progress has been made towards completing the program environmental assessment but it cannot be submitted for review by May 1, 1980;
- E. The betterment of people of the whole or any part of Ontario by the protection, conservation and wise management in Ontario of the environment is being sufficiently fulfilled by

proceeding with the preparation of the program environmental assessment;

- F. It is, therefore, in the public interest to extend the exemption of the undertaking.

This exemption is subject to the following terms and conditions:

1. Ontario Hydro shall notify the Director of the Environmental Approvals Branch, Ministry of the Environment, of Ontario Hydro plans to grant leases, licences or easements on properties along transmission line rights-of-way for secondary uses, so that the Ministry of the Environment may become more familiar with the nature of this undertaking.
2. Ontario Hydro shall submit a program environmental assessment covering this undertaking before December 1, 1980.
3. This exemption shall terminate on the earlier of the date on which approval to proceed with the undertaking is received under the Act or December 1, 1981.
4. Prior to the termination of the exemption order, any project specific environmental assessment involving right-of-way acquisition will consider secondary uses as part of the assessment. O. Reg. 851/80.
